Tom Burton	Commissioner

In the Matter of **Century Telephone Company's** Request for Approval of Certified Actual Costs Associated with the **Fillmore County** 911 Emergency Telephone Services System

ISSUE DATE: June 1, 1993

DOCKET NO. **P-509/ES-92-1398**

ORDER APPROVING CERTIFIED 911 SYSTEM COSTS

PROCEDURAL HISTORY

On February 21, 1984, the Minnesota Public Utilities Commission (the Commission) approved Fillmore County's final plan for the establishment of a 911 Emergency Telephone Services System.

On October 24, 1989, the Commission approved the purchase of Chester Telephone Company by Century Telephone Company (see P-509/PA-89-683 In the Matter of the Joint Petition of Century Telephone Enterprises, Inc. and Chester Telephone Company for Approval of the Transfer of 100 Percent of the Common Stock of Chester to Century and to Transfer Chester's Certificate of Authority to Century).

On May 29, 1992, Century Telephone Company (the Company) placed a portion of a 911 Emergency Telephone System into service in the North Chester exchange in Fillmore County.

On June 17, 1992, the Company certified the actual costs it incurred for the provision of 911 Emergency Telephone Service in Fillmore County. The certified costs included certain amounts for central office modification costs which the Company previously recorded on its books and records.

Century is now requesting Commission approval of actual 911 system costs. Commission approval is necessary before the Department of Administration (DOA) will make payments for 911 system costs.

FINDINGS AND CONCLUSIONS

Minn. Stat. Section 403.11, subd. 3 states:

Subd. 3 (METHOD OF PAYMENT; CERTIFICATION.) A public utility incurring reimbursable costs under subdivision 1 or 2 shall certify those costs to the commissioner of administration. The certification shall be in a form as prescribed by the commissioner after consultation with the public service commission. If the commissioner and the commission approve the certified costs as appropriate and accurate, the commissioner shall pay the certified costs from money appropriated for that purpose within 90 days following receipt by the commissioner of the certified costs. The commissioner of administration shall estimate the amount required to reimburse public utilities for the state's obligations under subdivisions 1 and 2 of this section and the governor shall include the estimated amount in the biennial budget request.

The Commission finds that the Company would be unlawfully compensated if it recovered the same central office modification costs once from its ratepayers and again from the State of Minnesota.

Century has certified, in writing, that the elements of 911 services and associated costs indicated on Attachment A reflect only charges for services actually rendered in the direct provision of 911 service in Fillmore County.

The amount appearing on line 1b is the actual capital cost the Company incurred to install central office equipment necessary to switch calls to 911 trunks. The amount appearing on line 1c is the actual cost associated with moving or rearranging existing central office equipment because of 911 installation. The amounts appearing on lines 1b and 1c are traceable to specific telephone company job orders which will be retained in the Company's records. These amounts are one-time costs which will be reimbursed by the State of Minnesota and which will be excluded from the Company's rate base.

The amount appearing on line 2 is the annual recurring cost associated with the 911 central office equipment. This amount reflects maintenance, administration and gross earnings tax factors. Depreciation is not reflected in this amount since the Company will be reimbursed for 100% of its capital cost. Income taxes are not reflected in this amount because only expenses are recovered and consequently there are no taxable profits.

All other charges listed on Attachment A are in accordance with the Company's tariffs.

The Commission finds that the costs for 911 Emergency Telephone Service in Fillmore County which have been certified by the Company are appropriate and accurate.

911 system costs will be recertified on an annual basis to reflect revised maintenance and administration expense factors.

ORDER

1. The costs identified on Attachment A accompanying this Order are approved as appropriate and accurate.
2. The Company shall remove or exclude from its books and records all 911 central office modification costs in order to reflect the contribution in aid of construction paid by the State of Minnesota. The Company shall remove the central office modification costs in the following manner:
 - a) The 911 central office capital cost amounts shown on line 1b of Attachment A shall be credited to the asset account where these amounts are now recorded.
 - b) Any depreciation already accrued on 911 investments shall remain in depreciation reserve.
 - c) The 911 central office rearrangement cost amount shown on line 1c of Attachment A shall be credited to the expense account where initially recorded.
3. Within 30 days of the date of this Order, the Company shall certify to the Commission, in writing, that all 911 central office modification costs have been removed or excluded from the Company's books and records. The certification shall include all accounting entries used to exclude 911 central office modification costs from the Company's books and records.

4. The Company shall certify 911 system costs annually based on the Company's most recent annual report on file with the Commission.
5. This Order does not approve payment of any 911 system costs. Any possible future approval of payment for system costs shall be granted by the Commissioner of the Department of Administration in accordance with the provisions of Minn. Stat. Section 403.11.
6. This Order shall become effective immediately.

BY ORDER OF THE COMMISSION
